

Digital Citizenship

Responsible Use

Year 2

Learners follow the school's LT responsible use agreements and discuss them with parents/carers at home.

Learners follow and assist others in applying protocols and practices to demonstrate responsible use of learning technologies in the school environment.

Use of Technology

Year 2

Learners identify ways in which technology supports collaboration, learning, and productivity in school and in the wider world.

Learners demonstrate an understanding of age appropriate issues related to safe, healthy, and acceptable use of digital devices (e.g., online safety and privacy, amount of daily screen use, safe searching, online etiquette) and describe personal consequences of inappropriate use.

The Online World

Year 2

Learners understand that good digital citizens are responsible and respectful in the online world (and beyond)

Academic Honesty

Year 2

Learners acknowledges the owner(s)/creator(s) of digital work by referring to the original sources.

Learners understand that there are laws associated with the use of technology and copyright. They recognise the difference between some simple models of differing software licensing.
